Hi Rhina,

I'm pulling Kerry in on this one because he has more experience with the storage stability information.

Kerry, I pulled this from an email you sent a few weeks ago, but please adjust as necessary -

Question: Do the data requirements about containers require information about fluorination to be submitted if containers are fluorinated?

Draft answer:

Ex. 5 Deliberative Process (DP)

Hi Nancy,

Follow-up question: Do the data requirements about containers require information about fluorination to be submitted if containers are fluorinated?

Hi Rhina,

I'd love to know which state asked that question. They should know that things are not black and white. ☺ Here is how I would respond:

Ex. 5 Deliberative Process (DP)

Let me know if you have any questions and, of course, please smooth it out as needed!

Subject: PFAS Packaging Issue Question

Hi Nancy,

Hope you're doing well! We just had a few follow up questions from the states regarding the PFAS packaging issue. I was wondering if you could help me with an answer to the following (Q from the states in red):

What are EPA's regulations on the type of containers that may be used for pesticide storage?

Ex. 5 Deliberative Process (DP)
